Mr. Lynn Clark
Ohio E.P.A.
2110 Aurora
Twinsburg, Ohio

Dear Mr. Clark

In reference to our conversation today concerning the disposal of sludge from the Lincoln Electric Co., please mail me a permit to install said wastes.

I appreciate you allowing Inland Reclamation Inc. to dispose of this sludge on an interim basis, because as you pointed out, it does take a substantial time to actually be mailed this permit.

Being that the sludge is not of a highly toxic nature and is fairly dry, we plan to dispose of it by mixing it in with the normal garbage and covering it daily.

Thank you for being of assistance in this undertaking.

Sincerely

Frank Palladino Jr.
Comptroller
